Industrial Generator Sets with
SOUND ENCLOSURES

5.5 kVA – 700 kVA, 50 Hz
10 kW – 600 kW, 60 Hz

KOHLER®

Keeping your business **on** track

Ever wonder how your business could be affected whenever there is a power loss? Especially in times when you need to run mission-critical applications? In today's business world, power loss means profits lost. Monitoring your business 24/7 and ensuring reliable backup power is always **on** - is critical. **on** alert, **on** demand, **on** reserve - without interruption.

Kohler delivers with a passion for providing clean, reliable power whenever and wherever it's needed. Built for reliability with self-diagnostic features, Kohler generator sets come equipped with sound enclosures and integrated fuel tanks. With more than 80 years' reputation of quality, reliability and innovative technology in the generator business, Kohler provides you the solution you can trust.

Kohler Power Systems - your complete power source. Turn it **on** with Kohler now.

Benefits of Generator Sets with Sound Enclosures

Plug-and-Play

- No need for complex installation and messy cabling
- Shipped ready-to-use, ensuring seamless and efficient integration into your power system

Mobility

- Availability of lifting and handling points to facilitate easy transportation
- Minimal effort in installation required
- Rapid deployment when rendering back-up power

Outdoor Installation

- Allow for more productive use of space with outdoor installation
- Cost-savings

Silent Operation

- Sound-attenuating enclosures that are quiet and rigorously tested

General Specifications

- Assembled soundproofing enclosures
- Kohler cream beige standard colour
- Rust-resistance : Electro-galvanised steel panels coated with heat-hardening powder based on polyester resin as a form of rust protection.
- High corrosion resistance for enclosure parts and fixtures

• Safety & Security

- Unique single key lock on all doors
- Additional emergency stop button installed outside of enclosure
- Convenience : Access to diesel, oil and battery behind lockable doors
- Protective guard for rotating parts
- Critical exhaust silencer integrated in enclosure
- Separate door for access to generator set control panel

* Features may vary for different models. The manufacturer reserves liability whatsoever.

The Kohler Advantage

Superior Quality

- Designed by highly qualified and experienced engineers
- Proven design - Prototypes are thoroughly tested before production
- Proven quality - with more than 80 years' experience in the generator set business
- All generator sets are compliant with directive 2000/14/CE, and its products are checked and validated by the approved laboratory CETIM

Reliability

- Currently, tens of thousands of Kohler enclosed generator sets have been installed worldwide – a testament to its reliability

Worldwide Service & Support

- Our generator sets are supported by Kohler's global service network

- Acoustic sound treatment : Sound proofing and fire-retardant foam between 20-50mm thickness
- Silent operation: High priority on noise reduction and conforms to 2000/14/CE noise emission standards
- Modularity: Modular design without complex installation; maintenance and re-ordering of components now made simpler and hassle-free
- Integrated fuel tank in generator skid
- Power circuit break

• Handling

- Lifting ring (Single or two-points lifting design)
- Integral brackets for forklifts (up to 110kVA)

• Maintenance

- Accessible through doors on each side (number depend on design)
- Quick controller view through window glass panel on enclosure door
- Drainage points for diesel, oil and coolant
